- Cosmetically elegant textures for improved compliance and repeat usage.
- Premium pharmacy presentation styling aligned with modern dermatology practice.

ZVEX® | Cetyl Alcohol Moisturizing Cream

ZVEX
Doctor Recommended

Key Ingredient Benefits

Cetyl Alcohol and Stearyl Alcohol help restore skin hydration, strengthen the skin barrier, and provide long-lasting moisturisation for dry and sensitive skin.

Composition Highlights

The formulation combines dermatology-grade emollients in a fragrance-free, non-foaming moisturising base designed for high skin tolerability and cosmetic elegance.

Dosage Guidance

Apply evenly on cleansed skin once or twice daily or as directed by the healthcare practitioner for optimal moisturisation support.

Practitioner Positioning

Positioned as a premium dermatologist-recommended moisturising cream that supports barrier repair and improves patient compliance during skincare treatments.

clinically effective | proof over promises

ZVEX® | Cetyl Alcohol Moisturizing Cream

ZVEX
Doctor Recommended

Value Advantage

- **Superior Efficacy Through Advanced Barrier Repair Hydration**
- **Enhanced Safety & Dermatology-Friendly Tolerability**
- **Clinically Aligned Ingredient Architecture**
- **Improved Convenience & Patient Compliance**

clinically effective | proof over promises

ZVEX® | Alpha Arbutin 2% Face Serum

ZVEX
Doctor Recommended

Key Ingredient Benefits

Alpha Arbutin 2% combined with Butylresorcinol, Ferulic Acid and Hyaluronic Acid helps reduce pigmentation, brighten skin tone and improve overall skin radiance.

Composition Highlights

The serum features a clinically aligned depigmentation complex with antioxidant and hydration support in a lightweight, cosmetically elegant formulation.

Dosage Guidance

Apply 2 to 3 drops evenly on cleansed skin once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Designed for medical practitioner recommendation and premium pharmacy placement.

clinically effective | proof over promises

ZVEX® | Alpha Arbutin 2% Face Serum

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Multi-Pathway Pigmentation Control
- Superior Safety & Dermatology-Friendly Tolerability
- Clinically Proven Pigmentation Reduction Support
- Improved Convenience & Consumer Compliance

clinically effective | proof over promises

ZVEX® | BHA Exfoliating Toner

ZVEX
Doctor Recommended

Key Ingredient Benefits

Salicylic acid combined with green tea helps exfoliate clogged pores, reduce excess oil & soothe acne prone inflamed skin.

Composition Highlights

The formulation integrates beta-hydroxy acid exfoliation with antioxidant botanical support in a dermatology-oriented, cosmetically elegant toner base.

Dosage Guidance

Apply gently on cleansed skin once or twice daily using a cotton pad or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a clinically aligned exfoliating toner for acne-prone skin management with enhanced tolerability and premium skincare presentation.

clinically effective | proof over promises

ZVEX® | BHA Exfoliating Toner

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Dual Acne-Control & Soothing Action
- Improved Safety & Skin Barrier-Friendly Tolerability
- Clinically Proven Salicylic Acid Acne Management Support
- Superior Convenience & Daily Compliance Positioning

clinically effective | proof over promises

ZVEX® | Ceramide Barrier Lotion

Key Ingredient Benefits

Ceramide Complex and Cholesterol help restore the skin barrier, improve hydration retention, and reduce dryness and irritation in compromised skin.

Composition Highlights

the formulation combines barrier-repair lipids with dermatology-friendly moisturising agents in a fragrance-free and cosmetically elegant lotion system.

Dosage Guidance

Apply evenly on affected or dry skin areas once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium barrier-repair lotion for dermatologist recommendation alongside acne, retinoid, and sensitive skin treatment protocols.

clinically effective | proof over promises

ZVEX® | Ceramide Barrier Lotion

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Advanced Barrier Repair Technology
- Superior Safety & Sensitive-Skin Compatibility
- Clinically Proven Barrier Restoration Support
- Improved Convenience & Patient Compliance

clinically effective | proof over promises

ZVEX® | Clarifying Spot Gel

Key Ingredient Benefits

2% Salicylic Acid combined with Glycolic Acid helps unclog pores, reduce active acne lesions and promote smoother and clearer skin texture.

Composition Highlights

The formulation integrates dual exfoliating acids in a fast-absorbing spot-treatment gel designed for targeted acne correction with improved tolerability.

Dosage Guidance

Apply a small amount directly on active acne lesions once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-oriented spot correction gel for targeted acne management and enhanced patient compliance.

clinically effective | proof over promises

ZVEX® | Clarifying Spot Gel

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Dual-Acid Acne Correction
- Improved Safety & Controlled Dermatology-Focused Action
- Clinically Proven Acne & Exfoliation Support
- Superior Convenience & Patient Compliance

clinically effective | proof over promises

ZVEX® | Glycolic Acid Cream

ZVEX
Doctor Recommended

Key Ingredient Benefits

6% Glycolic Acid helps promote gentle exfoliation, improve skin texture, reduce dullness, and enhance overall skin radiance.

Composition Highlights

The formulation combines alpha-hydroxy acid resurfacing technology with a cosmetically elegant cream base designed for balanced efficacy and skin tolerability.

Dosage Guidance

Apply a thin layer on cleansed skin once daily at night or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-recommended resurfacing cream for skin renewal, texture refinement, and glow-enhancing skincare protocols.

clinically effective | proof over promises

ZVEX® | Glycolic Acid Cream

ZVEX
Doctor Recommended

Value Advantage

- **Enhanced Efficacy Through Controlled AHA Skin Renewal**
- **Improved Safety & Balanced Skin Tolerability**
- **Clinically Proven Exfoliation & Texture Improvement Support**
- **Superior Convenience & Long-Term Patient Compliance**

clinically effective | proof over promises

ZVEX® | Hyaluronic Acid Serum

ZVEX
Doctor Recommended

Key Ingredient Benefits

2% Sodium Hyaluronate combined with B5 Panthenol provides intense hydration, improves moisture retention and supports skin barrier comfort & plumpness.

Composition Highlights

The formulation integrates multi-depth hydrating actives with soothing skin-conditioning agents in a lightweight, non-greasy serum base.

Dosage Guidance

Apply 2–3 drops evenly on cleansed skin once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-oriented hydration serum for barrier support, post-procedure care, and long-term skin moisturization protocols.

clinically effective | proof over promises

ZVEX® | Hyaluronic Acid Serum

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Multi-Level Hydration Support
- Superior Safety & Sensitive-Skin Compatibility
- Clinically Proven Hydration & Barrier Support
- Improved Convenience & Daily Compliance

clinically effective | proof over promises

ZVEX® | Matt Gel Moisturising Cream

Key Ingredient Benefits

Oat Gel combined with Hyaluronic Acid helps soothe sensitive skin, provide lightweight hydration and support long-lasting skin barrier comfort.

Composition Highlights

The formulation combines calming botanical extracts with advanced hydration technology in a non-greasy, mattifying gel-cream base suitable for oily and acne-prone skin.

Dosage Guidance

Apply evenly on cleansed skin once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-recommended moisturizing gel for acne-prone, sensitive, and combination skin management protocols.

clinically effective | proof over promises

ZVEX® | Matt Gel Moisturising Cream

Value Advantage

- Enhanced Efficacy Through Oil-Controlled Hydration Technology
- Improved Safety & Acne-Friendly Skin Compatibility
- Clinically Proven Hydration & Skin-Soothing Support
- Superior Convenience & Daily Patient Compliance

clinically effective | proof over promises

ZVEX® | Salicylic Acid Body Wash

ZVEX
Doctor Recommended

Key Ingredient Benefits

1% Salicylic Acid combined with Tea Tree helps reduce body acne, unclog pores, control excess oil, and support clearer skin.

Composition Highlights

The formulation integrates gentle exfoliating and antibacterial actives in a dermatology-oriented cleansing base designed for daily body care and acne management.

Dosage Guidance

Use during bathing once daily by applying on wet skin, gently massaging, and rinsing thoroughly or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-recommended body wash for acne-prone and oily skin with enhanced daily-use tolerability and compliance.

clinically effective | proof over promises

ZVEX® | Salicylic Acid Body Wash

ZVEX
Doctor Recommended

Value Advantage

- **Enhanced Efficacy Through Acne-Focused Deep Cleansing Action**
- **Improved Safety & Balanced Daily-Use Tolerability**
- **Clinically Proven Acne & Sebum-Control Support**
- **Superior Convenience & Patient Compliance**

clinically effective | proof over promises

ZVEX® | Matt Silicone Sunscreen Gel SPF50

Key Ingredient Benefits

SPF 50 broad-spectrum UV filters in a silicone gel base help protect the skin from UVA/UVB damage while providing a smooth, non-greasy matt finish

Composition Highlights

The formulation combines high-performance photoprotective filters with cosmetically elegant silicone technology for lightweight daily sun protection and enhanced wear comfort

Dosage Guidance

Apply generously on exposed skin 15–20 minutes before sun exposure and reapply as needed or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-recommended sunscreen gel for oily, acne-prone, and sensitive skin requiring high daily photoprotection with superior cosmetic elegance.

clinically effective | proof over promises

ZVEX® | Matt Silicone Sunscreen Gel SPF50

Value Advantage

- Enhanced Efficacy Through Broad-Spectrum SPF 50 Protection
- Improved Safety & Dermatology-Friendly Photoprotection
- Clinically Proven UV Defense & Skin Protection Support
- Superior Convenience & Daily Compliance

clinically effective | proof over promises

ZVEX® | Tranexamic Acid Serum

ZVEX
Doctor Recommended

Key Ingredient Benefits

Tranexamic Acid 3% combined with Mandelic Acid helps reduce pigmentation, improve uneven skin tone, and support brighter and clearer skin appearance.

Composition Highlights

The formulation integrates clinically aligned depigmenting and gentle exfoliating actives in a lightweight serum base designed for enhanced skin tolerability and cosmetic elegance.

Dosage Guidance

Apply 2-3 drops evenly on cleansed skin once daily at night or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-focused pigmentation correction serum for melasma, post-inflammatory hyperpigmentation, and uneven skin tone management protocols.

clinically effective | proof over promises

ZVEX® | Tranexamic Acid Serum

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Dual Pigmentation-Control Mechanism
- Improved Safety & Better Sensitive-Skin Tolerability
- Clinically Proven Pigmentation & Skin-Clarity Support
- Superior Convenience & Patient Compliance

clinically effective | proof over promises

ZVEX® | Urea & Lactic Body Lotion

ZVEX
Doctor Recommended

Key Ingredient Benefits

10% Urea combined with Lactic Acid helps deeply hydrate rough skin, improve skin smoothness and support gentle exfoliation of dry and flaky areas.

Composition Highlights

The formulation integrates keratolytic and moisturizing actives in a dermatology-oriented body lotion base designed for enhanced hydration retention and skin softening.

Dosage Guidance

Apply evenly on dry or rough skin areas once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-recommended body lotion for rough, dry, and keratosis-prone skin with enhanced long-term moisturization support.

clinically effective | proof over promises

ZVEX® | Urea & Lactic Body Lotion

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Dual Keratolytic & Hydration Action
- Improved Safety & Long-Term Skin Tolerability
- Clinically Proven Rough-Skin & Hydration Support
- Superior Convenience & Patient Compliance

clinically effective | proof over promises

ZVEX® | Vitamin C 10% Serum

ZVEX
Doctor Recommended

Key Ingredient Benefits

Vitamin C 10% combined with Acetyl Glucosamine, Polyhydroxy Acid and Centella helps brighten skin tone, provide antioxidant protection, support gentle exfoliation and soothe sensitive skin.

Composition Highlights

The formulation integrates multi-functional brightening, barrier-support and skin-renewal actives in a lightweight serum base designed for enhanced tolerability and cosmetic elegance.

Dosage Guidance

Apply 2 -3 drops evenly on cleansed skin once or twice daily or as directed by the healthcare practitioner.

Practitioner Positioning

Designed for medical practitioner recommendation and premium pharmacy placement.

clinically effective | proof over promises

ZVEX® | Vitamin C 10% Serum

Value Advantage

- **Enhanced Efficacy Through Multi-Active Brightening & Antioxidant Support**
- **Improved Safety & Better Sensitive-Skin Compatibility**
- **Clinically Proven Radiance & Skin Protection Support**
- **Superior Convenience & Daily Patient Compliance**

clinically effective | proof over promises

ZVEX® | Clarifying Face Wash

ZVEX
Doctor Recommended

Key Ingredient Benefits

Salicylic Acid 2% combined with Zinc PCA helps deeply cleanse pores, reduce excess oil, control acne breakouts, and support clearer skin.

Composition Highlights

The formulation integrates exfoliating and sebum-regulating actives in a gentle, non-stripping cleansing base designed for acne-prone and oily skin.

Dosage Guidance

Use twice daily on wet skin by gently massaging and rinsing thoroughly or as directed by the healthcare practitioner.

Practitioner Positioning

Positioned as a premium dermatologist-recommended clarifying face wash for daily acne management and oil-control skincare protocols.

clinically effective | proof over promises

ZVEX® | Clarifying Face Wash

ZVEX
Doctor Recommended

Value Advantage

- Enhanced Efficacy Through Deep Pore Cleansing & Sebum Control
- Improved Safety & Non-Stripping Skin Compatibility
